

New Trustee Position at Pan Intercultural Arts

Person specification

Overview

Pan is looking to appoint a new trustee to the Board of Trustees of the charity. This person will have a specific task on the board which will need particular experience and knowledge.

In addition to regular trustee responsibilities the new trustee will be tasked with advising the board on fundraising activities beyond the areas in which the charity has been regularly successful. These have been from trusts, foundations, National Lottery and government sources.

Advice is needed on fundraising from, for example, individual donors, corporate donors, Livery companies and private trusts.

In addition this new trustee would have the task of convening Pan's Development Committee, a group of professionals from various walks of life who serve voluntarily to increase networks, raise Pan's profile and open new channels of funding. Over the past few years their activities have raised many tens of thousands of pounds. The Board is now looking to work more closely with this group and increase its effect. New members join the Development Committee for a period of approximately two years.

Details.

The Trustees would expect this appointment to have considerable knowledge and experience of fundraising from the sources mentioned above, good networks of possible friends and donors to Pan, the ability to manage events which could aid the charity and an interest in the goals of its work.

Pan encourages applicants from all backgrounds and would welcome expressions of interest to the following address:
